Subject: RE: Order Denying Motion to Seal

Our motion to seal was not denied. It was granted in part and denied in part. The things that remain redacted should be treated as confidential under the protective order.

With respect to the two passages you mentioned in the other thread, we will agree to unredact "an internal file sharing tool." The other passage however should remain redacted [REDACTED].

And very important: on the confidential point. We do not agree on that point and if we need to get on the phone with Judge Alsup, let me know, but your motion to seal was denied.

Jim,

Here is what I am sending our clients. Please get back to me regarding the two portions that I noted are not “technical information” and your basis for suggesting that this is somehow confidential. Judge Corley’s order is clear that there is no basis for sealing.

That’s fine. As long as you keep everything in green redacted and it doesn’t go beyond your client.

Arturo,

Our additional proposed redactions are in green. We believe these are consistent with Judge Corley's order, but I'm available this afternoon if we need to get on the phone.

Thanks,
Jim
